

To whom it may concern:

I am writing to inform you about the vital role that K-LOVE serves in my community. For me personally K-LOVE is the only alternative to secular programming. This station provides myself and my community with positive, uplifting music and messages. For a person who is a new christian K-LOVE encourages them and plugs them in to local christian events. As a long-time christian K-LOVE has become a part of my daily walk. If my local station is replaced by an LPFM broadcaster I believe that it would result in many christians simply not listening to the radio at all. I believe that K-Love is vital to my community because it is spreading the truth about Jesus and that people who don't know Him are being introduced to Him through this station.
